

## Marko seat

This seating solution from Stage Systems offers a stylish finish combined with contemporary design features.

### DESIGN FEATURES:

- Slim seat and back design allows for good access space
- Seats and back rests have postural curvature to support the body comfortably
- Each chair is fitted individually, allowing for as little or as many chairs as required
- Patented tipping mechanism with a counterweight design offers a maintenance free smooth movement
- Optional writing ledge and modesty panel

### FINISHES:

- Fully cushioned and upholstered (Camira Fabrics' Xtreme plus)
- Formed beech plywood with clear polyurethane lacquer
- Mild steel framework structure with a choice of RAL colour finishes (RAL 9006 standard)
- Writing ledge & modesty panel finished with selected laminates (Formica Fundamentals)

## COMBINATIONS:

- Individual fixings secure the chair to a flat floor, risers or rear wall
- Chairs can be fitted in a straight, faceted or curved arrangement
- The same chair fixture can also support a writing ledge for lectures
- Writing ledge works in conjunction with seating arrangement (straight, faceted or curved)

## TECHNICAL DETAILS:
